ADNIYA YOUSAF

Software Developer

07742573416   Wolverhampton, UK   Right to work in the UK

GitHub   LinkedIn   Portfolio   Email

PROFILE

Junior Software Developer with over a year of experience in software development, including hands-on contributions to startups. Proficient in JavaScript, React, and modern frameworks, with a solid foundation in full-stack development. Adept at collaborating with cross-functional teams, implementing scalable solutions, and optimizing performance. A quick learner with a proactive mindset and keen attention to detail, I have a proven track record of delivering projects within tight deadlines while maintaining code quality. Eager to bring my startup experience and technical expertise to support innovative projects and mission.

SKILLS

Frontend Technologies:
React, Vue.js, HTML5, CSS3, Sass, JavaScript Ionic framework, Python, PHP(basic), Responsive design principles, Tailwind CSS

Backend Technologies:
Node.js, Express.js, RESTful APIs, SQL

Cloud & Infrastructure:
AWS (S3, EC2, RDS), Terraform, Docker, CI/CD Pipelines

Testing:
Jest, TDD, React Testing Library, Playwright, Supertest

Database:
PostgreSQL

Version Control & Tools:
Git, GitHub, Agile Development, GitHub Action, Code review

EMPLOYMENT HISTORY

Front-end Developer Intern, Outset Wellness Ltd. UK

September 2024 – Present

- Collaborating with CPO and cross-functional teams in an Agile environment.
- Contributing to the development of applications using JavaScript, Vue.js, Ionic framework, and Node.js to refine the look and feel of the product, ensuring consistency across platforms and optimising its usability.
- Assisting with responsive design for both mobile and desktop experiences.
- Facilitating integration with the backend and implementing and building out web pages.
- Troubleshoot issues and implement effective solutions promptly.
- Work closely with the design teams to translate their requirements into technical solutions.

Career Development and Relocation to the UK

2022 – August 2024

- Completed intensive training in full-stack web development through CodeYourFuture.
- Led team projects, showcasing my ability to collaborate and innovate in a dynamic environment.
- Enhanced technical skills in AWS services, cloud computing, and Agile development.

Private Tutor, Pakistan

2013–2021

- Created unique lesson plans in maths, physics and chemistry to accommodate the student's specific needs, at all grade levels .
- Set homework, provided grades, and monitored progress of more than 50 students.
- Helped 95% of my students to achieve their target grade or above.

Tailoring & Made to Measure Clothes Making, Pakistan

2017-2019

- Developed over 30 unique dress designs from initial concept to completion, applying precise sewing techniques that enhanced spatial awareness and improved visual design skills relevant for creating user-centric web applications, resulting in 90% client satisfaction.
- Enhanced customer wardrobe with one-of-a-kind pieces, elevating their personal and professional image.

RECENT PROJECTS

Love Me Tender – Centralised Tender Management Platform (Team Project)   **GitHub**

Technologies: React, JavaScript, Node.js, PostgreSQL, db migrations, Docker, Authentication

- Built a platform where companies can list their tenders, bidders can place bids, and the admin can oversee and manage the entire process.
- Implemented robust authentication methods ensuring secure role based access for users while maintaining seamless navigation throughout the app with improved load times by 40%
- Collaborated closely with product owners and other developers through Agile sprints, completing one major iteration ahead of schedule that led to faster delivery times on critical project milestones within tight deadlines.
- Regularly communicated with the team and stakeholders via Slack and weekly demo meetings to showcase progress and gather feedback from the tech lead, product manager and CYF representatives.

Video Recommendation App – Personalised Content Platform (Individual Project)   **Live Demo** **GitHub**

Technologies: React, Node.js, PostgreSQL, RESTful APIs, AWS EC2

- Built a fully responsive video platform where users can upload, watch, and rate content.
- Implemented key features such as user authentication and video recommendations, prioritising performance and scalability.
- Designed intuitive UI components utilising responsive design principles that catered specifically for mobile users; achieved positive feedback from usability testing sessions conducted among more than 10 participants.
